

# OVER 25 YEARS OF EXPERIENCE PUT TO WORK FOR YOU.

## ABOUT US

*At Dynatech, our primary goal is to deliver intelligent and integrated building solutions that allow our customers to achieve their business objectives.*

We provide comprehensive management for all phases of system installations—from initial design through wiring, startup, commissioning, customer training, warranty and service.

To assure the highest level of quality, our engineers and other critical in-house personnel receive ongoing factory training in product applications and operations.

“

*Dynatech delivered exactly what they promised.*

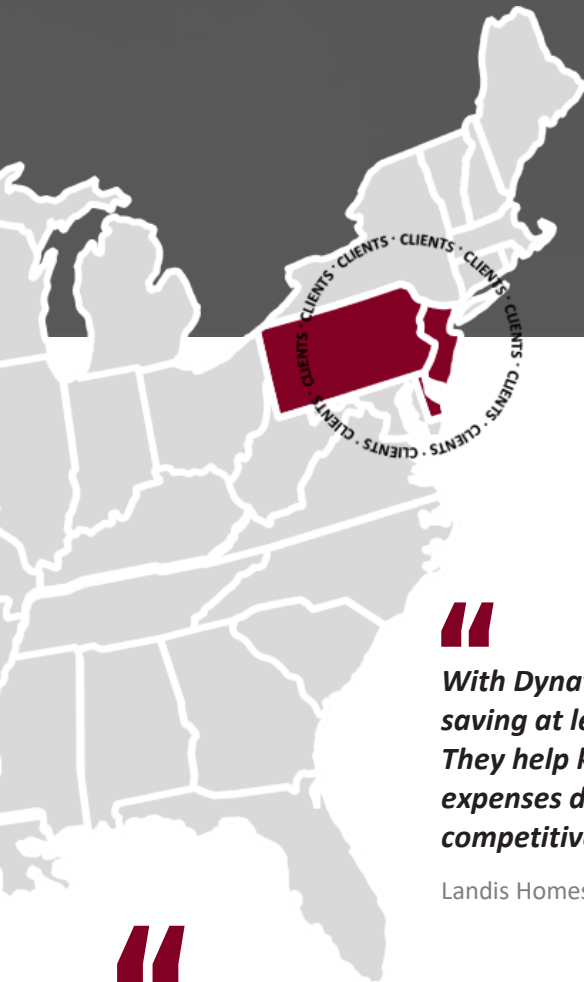

The Agnes Irwin School

# OPEN MADE EASY...

What does that mean for you? Simply put, we play well with others:

- Leverage all of today's open communication protocols
- Non-proprietary controllers and software allow you to choose any vendor
- Freely available software for system maintenance
- Open competition which means better prices and more choices for you
- Increased control over building systems and future expansion
